EKM Windows Guide

- Download the latest installer from heartland.nz/ekm
 Run the installer, it is mostly next, next, next.
- 3. Once installed, you will see an Initial Settings Window:

😕 EKM Insight Data Collection Application Setup - Initial Settings				×
The BKM Insight Data Collection Application requires some additional configuration information before the installation can be completed. This wizard will guide you through the necessary steps. If prompted for a licence provider code please enter it exactly as guated in your licence communication.	Please enter the licence provider code: happen	tinue	Cancel Ir	nstall

4. The licence provider code is happen (lower case)5. On the next screen enter the unique key for the relevant monitor:

M EKM Insight Data Collection Application Setup - Product Activation				×
	Please select the activation method: I will activate the program via the internet using a licence key			
The EKM Insight Data Collection Application requires a valid licence for service operation.	Enter licence key: (12 character key co Key code invalid	de)		
You should have been provided with either a licence file or licence key code to activate this installation. Please select the relevant activation method. Activation using a key code can only be performed if a connection to the internet is available.	○ I have been supplied with an activation licence file			
	Con	tinue	Cancel I	nstall

6. The Installer will check internet connectivity and advise you of any issues.

7. The next prompt should be to ask if you want to scan the default IP range, click YES.

8. Click Finish. 9. If all is successful you should see three green ticks like the below image, that means the install is complete and you can close the window.
